02/05/2010

Christy L. Jones, Ph.D., A.B.N.
Coastal Neuropsychological Services, P.C.
7655 Market Street
Wilmington, NC 28411
(910) 681-3880 (Phone)
(910) 681-3885 (FAX)

Education

Duke University Medical Center: Clinical psychology internship training program (7/93-6/94).
Nine-month neuropsychology and three-month cognitive behavioral rotations meet INS
Division 40 guidelines for neuropsychological training.
(Supervisor: Patrick Logue, Ph.D.)

University of Memphis: Doctoral degree program in Clinical Psychology (APA accredited),
Clinical Neuropsychology tract. Ph.D. (9/88-8/94) (Major Professor: Charles J. Long,
Ph.D).

University of Tennessee School of Medicine, Memphis: Course work completed in the areas of
clinical neurosciences and neuroanatomy. (1/91-12/91).

University of Memphis: Master of Science (9/88-8/90), Psychology
(Major Professor: Charles J. Long, Ph.D.).

University of Virginia: Bachelor of Arts **with High Distinction** (9/82-5/88), Psychology
(Advisor: Philip J. Best, Ph.D.).

Awards/Fellowships

Van Vleet Memorial Doctoral Fellowship (1991-1992 & 1992-1993): Awarded to
approximately 7 Memphis State University doctoral students annually based upon their
overall scholarly excellence.

Vidulich Doctoral Research Fellowship (1991-1992): Awarded on the merit of a submitted
research proposal.

Professional Society Memberships:

American Psychological Association
American Psychological Association, Division 40 (Neuropsychology)
Fellow, American College of Professional Neuropsychology
Fellow, American Board of Professional Neuropsychology
National Academy of Neuropsychology
North Carolina Psychological Association
Epilepsy Foundation of North Carolina

Board Certification

Diplomate, American Board of Professional Neuropsychology: March 31, 2001.

ABPN Added qualifications in Geriatric Neuropsychology: November 2004.

ABPN Added qualifications in Pediatric Neuropsychology: October 2006.

Diplomate, American Board of Pediatric Neuropsychology, April 2007.

Professional Leadership Roles

Member-at-Large, American Board of Professional Neuropsychology (Governing Body determining issues regarding the field of neuropsychology): October 2002 – November 2004.

Committee CoChair, Added Qualifications Committee (American Board of Professional Neuropsychology), March 2005-current.

Committee Chair, Cultural Diversity Committee (American Board of Professional Neuropsychology), November 2004 – current.

Examiner, American Board of Professional Neuropsychology: Determine if someone meets the requirements to be a Diplomate.

Professional Board Member for the Epilepsy Foundation of North Carolina: Responsibilities: organize and participate in the advancement and care of individuals who are diagnosed with seizure disorders. This board consists of: Neurosurgeons, Neurologists, and Neuropsychologists (1/94 - current).

North Carolina Traumatic Brain Injury Expert Panel: Neuropsychological assessment and participation in the development of IEP's for the public school system.

Editorial Boards:

The Professional Neuropsychologist: November 2002 – current.

Neuropsychology Review: Managing Editor (1996-1997): Approximately 20 hours per week editing/reviewing articles for publication.

Licensure

Licensed at the permanent Licensed Psychologist level (#2132) as of September 27, 1995. License renewed until 10/01/07.

Hospital Privileges:

Cape Fear Memorial Hospital
New Hanover Regional Medical Center

Professional Clinical Experience:

Coastal Neuropsychological Services, P.C.: Fulltime clinical neuropsychologist, owner, sole practitioner (11/98-current). Responsibilities include: evaluation and treatment of all age patients with neurological and psychiatric problems, continuing education, and forensic evaluations. Practice settings include: private practice, clinics, hospitals, assisted care facilities, and an inpatient psychiatric hospital.

Eastern Carolina Pain Management Center: Associate of Dr. Toni Harris (anesthesiologist). Treatment includes: stress management, individual psychotherapy, vocational & psychological evaluation, rehabilitation, and biofeedback (12/94-current). Patient population includes: spinal cord injuries, traumatic brain injury, thalamic pain syndrome, headaches, neuropathic pain, myofascial pain, and others.

WHA Medical Clinic, P.L.L.C.: Fulltime neuropsychologist (8/94-10/98). Responsibilities included: evaluation and treatment of all age patients with neurological and psychiatric problems, continuing education, and legal services. Practice settings included: private practice, clinics, hospitals, assisted care facilities, and an inpatient psychiatric hospital. Approximately 65-70 hours per week were spent in the practice of neuropsychology.

Academic/Professional Experience:

Supervisor for Masters level psychology students and interns.

Adjunct Faculty at University of North Carolina, Wilmington: Class: "The Psychology of Aging." One class per year (1995-1997). Textbook: M. Storandt & G. R. VandenBos (Eds.), *Neuropsychological Assessment of Dementia and Depression in Older Adults: A Clinician's Guide*. Washington, D.C.: American Psychological Association.

World Health Organization: Involved in collecting the data for the WHO to determine the extent of brain damage caused by toluene neurotoxicity in Central American children (1994-1995).

Internship

Duke University Medical Center: Clinical psychology internship (7/93-6/94):
1) liaison to the medical community, 2) facilitator of an inpatient neuropsychology

laboratory, 3) lecturer to medical residents, 4) psychiatry, neurology, psychology, and gerontology grand rounds, 5) rotation on inpatient psychiatric locked units involving evaluation and short-term treatment. (Supervisor: Patrick Logue, Ph.D.)

Predoctoral Clinical Experience

- 9/92 - 6/93: **Northeast Community Mental Health Center:** Clinical training with responsibilities that included: psychological evaluation and treatment of patients of all ages, behavioral assessment of children for foster care, case conference, supervision, and seminars (Supervisor: Lisa Alex, Ph.D.). Patients demonstrated a wide scope of psychiatric and neuropsychiatric diagnoses.
- 6/91 - 6/93: **Epilepsy Foundation of Western Tennessee:** Board member. Responsibilities: treatment, education, organization, and fund raising via grant proposals & civic activities.
- 9/90 - 9/91: **Pediatric & Child Assessment:** Department of Clinical Neuropsychology, Memphis State University, Memphis, TN (Supervisor: Sara Raz, Ph.D.). Assessment of developmental, behavioral, and intellectual functions of children (6 months to 16 years of age) who had developed intraventricular hemorrhages at birth.
- 9/89 - 6/93: **Psychological Outpatient Clinic:** Department of Psychology, Memphis State University (Supervisor: multiple). Neuropsychological and psychoeducational assessment of individuals ages 5 to 80 as well as psychotherapeutic and rehabilitative services. Population included: students, low income, and chronically mentally ill.
- 9/89 - 6/90: **Pediatric Neuropsychology:** St. Jude Children's Research Hospital, Memphis, TN (Supervisor: Ray Mulhern, Ph.D.) Served as a consultant, technician, and research assistant on a comprehensive cancer inpatient unit.
- 9/88 - 8/90: **Child/Adolescent Neuropsychology:** Mid-South Psychiatric Hospital, Memphis, TN (Supervisor: Charles J. Long, Ph.D.): Inpatient neuropsychological assessment of children with a wide array of neurological problems with psychiatric overlay: head trauma, Tourette's syndrome, toxic exposure, congenital abnormalities, etc.
- 9/88 - 8/90: **Adult Neuropsychological Placement:** Cortical Brain Assessment Laboratory, Memphis, TN (Supervisor: Charles J. Long, Ph.D.). Neuropsychological assessments using a modified version of the Halstead-Reitan Battery. Broad population: Alzheimer's Dementia, MID, Parkinson's Disease, aneurysms, hydrocephalus, substance abuse, cardiovascular, encephalitis, anoxia, seizures, psychiatric, syphilis, etc.
- 9/86 - 5/87: **Highland Center Epilepsy Monitoring Unit:** Undergraduate honors program, Blue Ridge Hospital, Charlottesville, VA (Supervisor: Janice Kuperschmidt, Ph.D.). Taught epilepsy education to parents and patients, led groups, and participated in weekly rounds.

Thesis and Doctoral Work

- 5/93: **Dissertation defense:** "The relationship between the MMPI conversion V code type and neuropsychological performance."
- 2/92: **Major Area Paper:** "The endogenous/exogenous diagnostic distinction of affective disorders: A neuropsychological review."
- 7/90: **Thesis Defense:** "Recovery from head trauma: A curvilinear function."

Research Experience

- 9/91 - 6/93: **Van Vleet Doctoral Fellowship funded research:** "The relationship between the conversion V code type and a neuropsychological profile."
- 9/91 - 8/92: **Vidulich Doctoral Fellowship funded research:** "Attention: The neurobehavioral component of affective disorders."
- 9/88 - 8/90: **Research Assistant:** Department of Psychology, Memphis State University, Memphis, TN (Supervisor: Charles J. Long, Ph.D.). Bedside neuropsychological assessment before and after cardiac bypass surgery.
- 1/88 - 8/88: **Research Assistant:** Department of Psychology, University of Virginia, Charlottesville, VA (Supervisor: Eric Turkheimer, Ph.D.). Investigated localization of cognitive functioning using: 1) a computer graphics technique for measuring lesion location and volume from CT and MRI scans and 2) an individual's performance on WAIS-R subtests.
- 9/87 - 5/88: **Research Assistant:** Department of Psychology, University of Virginia, Charlottesville, VA (Supervisor: Philip J. Best, Ph.D.). Distinguished Majors Thesis: "Neuropsychological assessment of the elderly." Neuropsychological evaluation of individuals with probable Senile Dementia of the Alzheimer's Type: collected and processed data in order to examine the effects of glucose tolerance on memory.
- 5/86 - 9/86: **Laboratory Assistant:** Department of Psychology, University of Virginia (Supervisor: Paul E. Gold, Ph.D.). Aided in the depth electrode implantations, blood assays, and training rats to investigate the role of naloxone on memory functioning.

Paper Publications

- Cramond, A.J., & Jones, C.L. (under review). Finger tapping test: Revised norms for children and future implications.
- Jones, C.L., & Cramond, A.J. (in preparation). Lead and behavior: A dose-response curve.
- Jones, C.L. & Cramond, A.J. (in preparation). A signature profile of deficits in children with

low to moderate blood lead levels.
