EDUCATION

- B.S. Chemistry, East Carolina University, 1968.
- M.S. and Ph.D., Chemistry, Emory University, 1973.
- Postdoctoral, Medicinal Chemistry, Kansas University, 1974.

PUBLISHED BIOGRAPHICAL INFORMATION

- Who's Who in Frontiers of Science and Technology.
- American Men And Women in Science.

CERTIFICATES

- Researcher license #10410, Tennessee Board of Pharmacy & Department of Health and Environment.
- Medical Review Officer (MRO) training course, Chicago, November 1-3, 1996.
- National Highway Traffic Safety Administration Approved Sobriety Testing and Training Course, Atlanta, July 29-30, 1994.
- Manufacturer's course on the theory and practice of infrared breathalcohol testing, National Patent Analytical Systems, Mansfield, Ohio, June 3, 1992.

TOP

MEMBERSHIPS

- American Chemical Society (23 years).
- American Association For the Advancement of Science (11 years).
- Metropolitan Atlanta Council on Alcohol and Drugs, a United Way Agency (formerly on Board of Directors).

FORENSIC STUDY

- Tested a large variety of controlled substances at Scotland Yard's Forensic Sciences Laboratories in London, England, October 1975.
- Conducted numerous independent examinations and testing of evidence at various American crime labs & the Virgin Islands since 1975.
- Conducted studies regarding u/a testing at the United States Army Forensic Laboratory, Wiesbaden, West Germany, July 1986.
- Researched marijuana cultivation, laboratory testing and smell identification at the Institute of Pharmaceutical Sciences (United States government marijuana farm), Oxford, Mississippi, May 1980.

Participant, variable surface tracking (VST) dog sessions, American Kennel Club, Athens, GA, October 1994.

RESEARCH GRANTS

United States Public Health Service (Department of Health & Human Services) CA54401 and CA55401.

PATENTS

- United States Patent No. 4,260,517, Odor of Cocaine, a pseudonarcotic. Formulation tested and found effective in United States Customs Dog Proficiency Training Studies, 1979. Mimicking the Odor of Cocaine for Police Use, New York Times, April 11, 1981. Evaluated for human use in treatment of cocaine dependency, Journal of Clinical Psychopharmacology, Volume 12 (1), page 61,1984. Confirmed as the dominant cocaine odor on circulated currency (Proceedings of the 51st Annual Meeting of the American Academy of Forensic Sciences, Abstract No. B-28, page 33, 1999).
- United States Patent No. 4,843,020, An Improved Method for Detecting THC-metabolite, solutions to eliminate endogenous substances that cause false-positive test results.
