Cobalt Thiocyanate Reagent  
 Lot Number: \_\_\_\_\_

Marquis Reagent  
 Lot Number: \_\_\_\_\_

Color Test Reagent Check Mix  
 Lot Number: \_\_\_\_\_

Color Test Negative Control (Inositol)  
 Lot Number: \_\_\_\_\_

Notes:

- Record the full displayed value when checking the balance.
- Personal balances and these two commonly used color tests should be checked on a weekly basis or at least prior to casework. A note should be written when an analyst is not able to complete the weekly check.
- Surrogate weights consist of 1 powder weight at level 1 trafficking weight.
