

**PowerPlex® PunchSolution Kit and PowerPlex® Y23 Amplification Kit QC Log**

| PowerPlex® PunchSolution Kit Information      |      |      |
|---|------|------|
| PowerPlex® PunchSolution Kit Lot Number       |      |      |
| PunchSolution Lot Number                      |      |      |
|   |      |      |
| PowerPlex® Y23 Kit Information                |      |      |
| PowerPlex® Y23 Kit Lot Number                 |      |      |
| 5X Master Mix Lot Number                      |      |      |
| 10X Primer Pair Mix Lot Number                |      |      |
| Amplification Grade Water Lot Number          |      |      |
| 2800M Control DNA Lot Number                  |      |      |
| Allelic Ladder Mix Lot Number                 |      |      |
| WEN Internal Lane Standard 500 Y23 Lot Number |      |      |
| Summary of Results                            |      |      |
| Criteria                                      | PASS | FAIL |
| Allelic Ladder                                |      |      |
| 2800M Control DNA                             |      |      |
| Reagent Blank(s)                              |      |      |
| Negative Amplification Control(s)             |      |      |
| NIST Traceable Standard(s)                    |      |      |
| Approval                                      |      |      |
| Date(s) Tested                                |      |      |
| Analyst Performing Test (Sign and Date)       |      |      |
| QC Officer Approval (Sign and Date)           |      |      |
| Technical Leader Approval (Sign and Date)     |      |      |
