Summary

★ I help make your company as Unhackable and compliant as possible leveraging a patented 22-layer Cybersafety security control stack. Call 877-468-2721 or Schedule a complimentary 15-Min Confidential Introduction Meeting at <https://go.oncehub.com/cmmc> to get to know one another and get your questions answered on CMMC, NIST Cybersecurity & compliance. Get compliant with CMMC, NIST 800-171, DFARS, HIPAA, HITECH, PCI, GDPR, SOC 2 Type 2 Audits, ISO 27001 & more.

In 2015, there were more than 177,866,236 personal records exposed via 780 data security breaches. 60% of businesses fail within 6 months of an attack. There are 29 million businesses in the U.S. There are more breaches than businesses. Sure, the hackers hit big businesses first, then the little guys. It used to be big companies that were attacked, now it's coming down to small businesses. So it's not a matter of IF, but WHEN! And HOW likely is your system to withstand it to keep you in business? 9,053,156,308 Data Records Lost Or Stolen Since 2013. Only 4% of breaches were "Secure Breaches" where encryption was used and the stolen data was useless.

Hi, I'm Craig Petronella, Amazon #1 Best Selling Author. Call me at 877-468-2721 if you prefer, email craig@petronellatech.com to cut costs & leverage a proven, patented, 22-layer cybersecurity stack to reduce your chances for a security breach to occur in your business. Look below. I have 50 recommendations & more 5-star reviews on Google than any other IT Firm in Raleigh, NC.

What we do:

- ✓ Get your business compliant fast!
- ✓ CMMC, NIST, DFARS, HIPAA Security Risk Assessments & Gap Analysis
- ✓ AI, Blockchain, ICO & IoT Consulting
- ✓ Remediation, Incident Response. Professional consulting services to fix your gaps

HIPAA Compliance Officer

April 2002 - Present (20 years 10 months)

Raleigh-Durham, North Carolina Area

Fractional HIPAA Compliance Officer provides cybersecurity and compliance consulting for medical practices of all sizes: small medical practices, medium to large medical practices with multiple locations and hospitals.

CMMC Registered Practitioner (RP) / NIST Compliance Officer

April 2002 - Present (20 years 10 months)

Raleigh-Durham, North Carolina Area

CMMC Registered Practitioner (RP) / NIST Compliance Officer and cybersecurity expert provides consulting, readiness and secure hosting for federal contractors and small businesses that are required to be compliant with the new CMMC ML1-5 mandates, NIST 800-171 Defense Federal Acquisition Regulation Supplement (DFARS) and NIST 800-53 Federal Information Security Management Act (FISMA).

Government contractors may face compliance concerns when working with Federal Government customers. Regulations such as NIST 800-171, also known as the Defense Federal Acquisition Regulation Supplement (DFARS), and NIST 800-53, which is part of the Federal Information Security Management Act (FISMA), is often a component of the technology standards that government contractors must follow during their work. To ensure full compliance with DFARS and FISMA requirements, contractors should understand what each regulation covers, the systems that they apply to, and whether overlap occurs between them.

Raleigh-Durham, North Carolina Area

CEO, CIO/vCIO and Executive Management IT Consultant

April 2002 - Present (20 years 10 months)

Raleigh-Durham, North Carolina Area

Our average business customer has 25-50 employees with multiple office locations. However, we work with small startups and help them grow. Most of our clients work in verticals such as Medical, Legal or Construction and rely on technology daily for running their business. Our customers know that their time is best spent working ON their business instead of IN their business. They want their employees to be productive, secure and they do not want the expense of a full time IT staff.

We are most successful in working with clients that:

- Demand reliability and security from their computer network.
- View technology as a tool for increasing productivity and gaining competitive advantages.
- Want to partner with a company that will act as a trusted advisor and seek to improve the productivity, profitability, and operations of their business through technology.
- Are willing to invest in technology to improve communication and eliminate manual tasks.
